Use Case 02: Customer Churn Insight

ConnectSphere Telecom

October 13, 2026

BUSINESS CONTEXT

Understanding customer disengagement is critical to sustainable growth.

Churn impacts growth

Lost customers mean lost revenue and higher costs to replace.

Patterns are hard to spot early

Warning signs are scattered across channels and behaviors.

Insights drive action

Deeper understanding helps us act early, retain more customers, and build lasting loyalty.

KEY DATA INSIGHTS

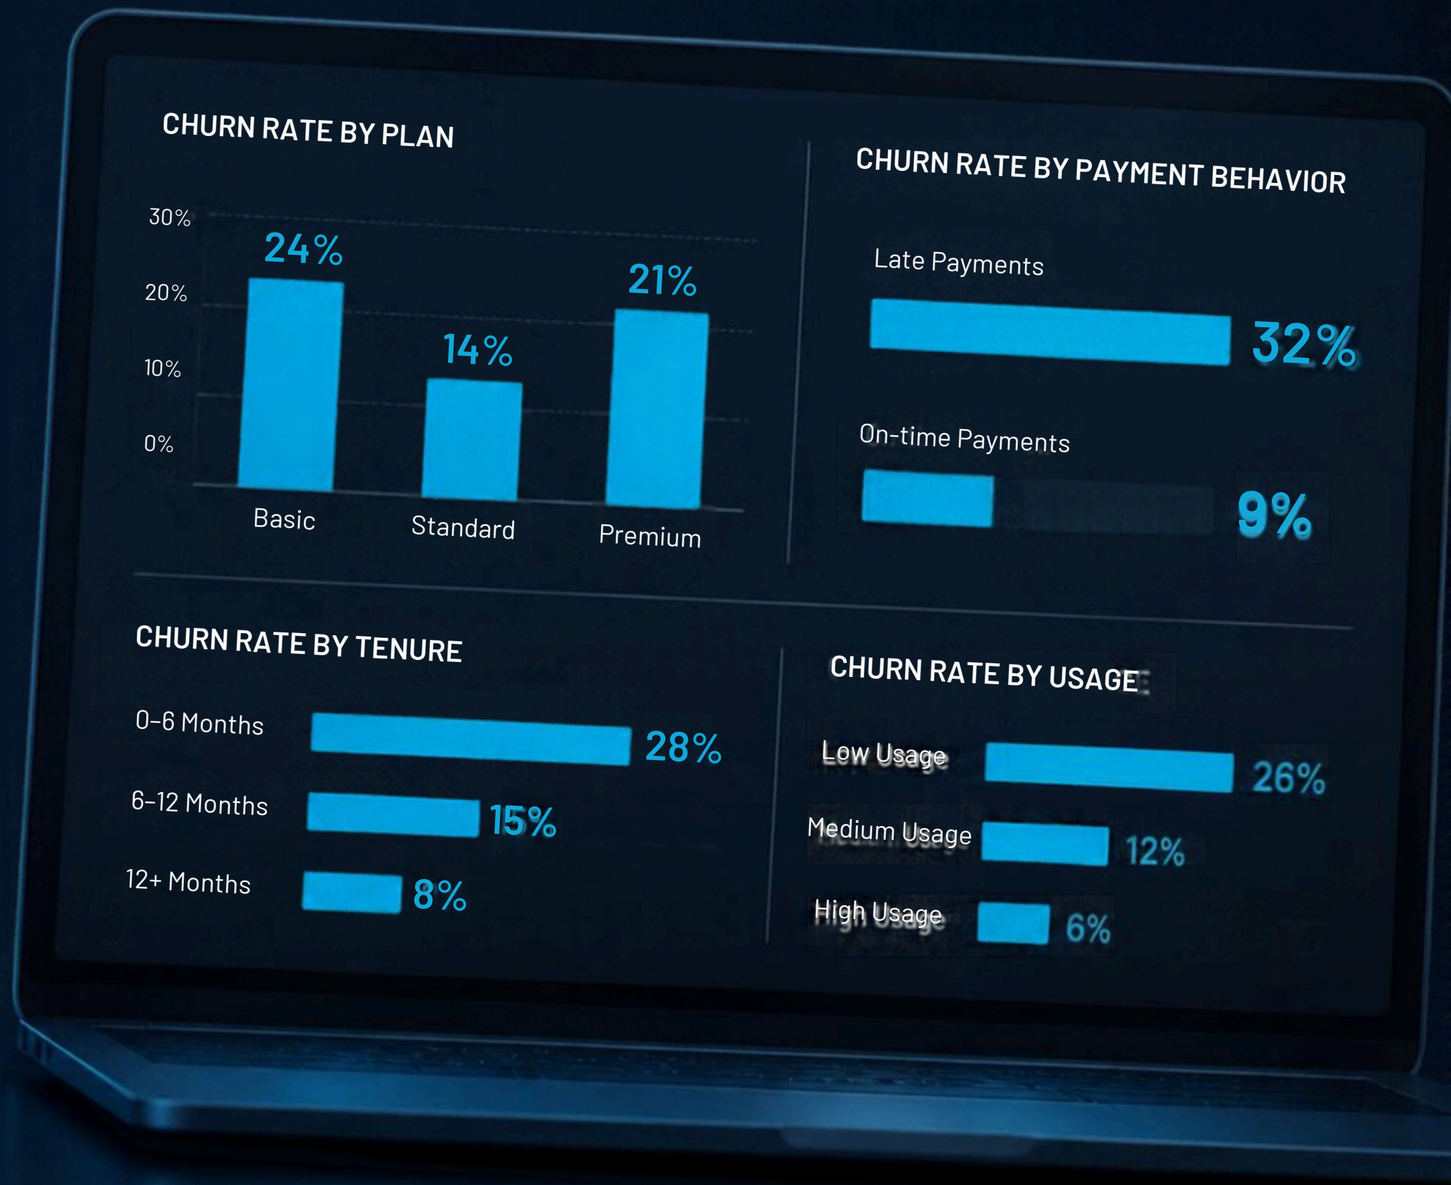

Higher churn in Basic and Premium plans

Late payments strongly linked to increased churn risk

Shorter tenure customers churn more

Lower usage correlates with higher churn

These patterns highlight where we can act early and retain more customers.

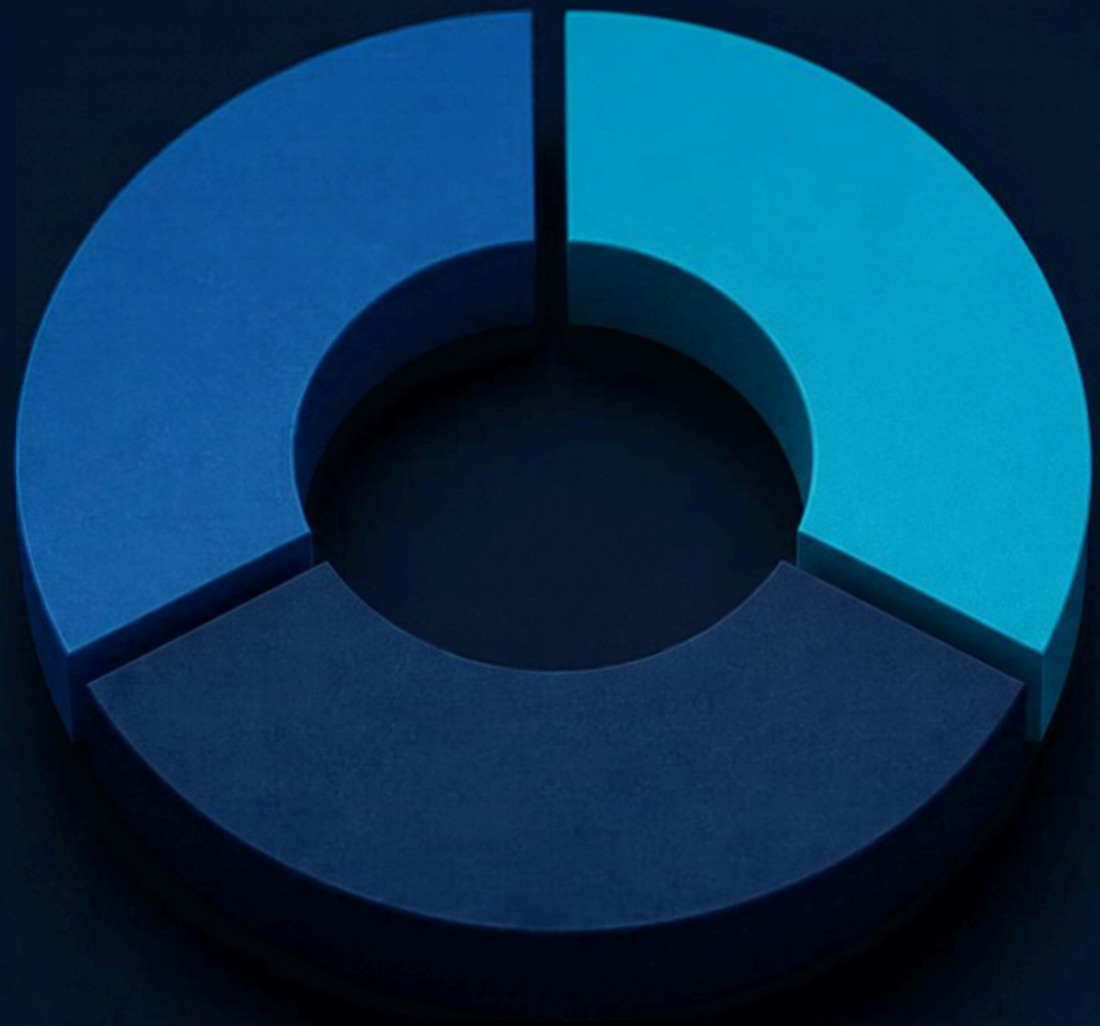

HIGH-RISK CUSTOMER SEGMENTS

Identify and describe customer groups with elevated churn likelihood.

Basic plan users
with late payments

Premium plan users
with sporadic usage

Recently downgraded
customers

Proportion of high-risk customers

DATA-DRIVEN RECOMMENDATIONS

Actionable strategies to reduce churn and strengthen customer loyalty.

Implement targeted communications
for late-paying Basic and Premium customers

Offer personalized incentives
to recently downgraded users

Enhance early warning systems
using payment and usage data

Leverage these insights to **drive retention and long-term success.**

ACTION PLAN OVERVIEW

Identify
at-risk customers

Deploy
targeted actions

Monitor
engagement
